Jessica Goldberg
Chemsico
Division of United Industries Corp.
P. O. Box 142642
St. Louis, MO

Subject: Amended Reregistration Label
Product Name: CHEMSICO HOME INSECT CONTROL C
EPA Registration Number: 9688-85
Decision Number: 413008

Dear Ms. Goldberg:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the Permethrin RED, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

NOTE: This product is **not** yet being reregistered under section 4(g) of FIFRA.

Please note that the record for this product currently contains the Confidential Statement of Formulation (CSF) listed below. Any previously dated CSFs are superseded.

- Basic CSF dated 11/28/2011
- Alternate CSF #1 dated 11/28/2011

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A copy of your label stamped "Accepted" is enclosed. Products shipped after 12 months from the date of this amendment or the next printing of the label, whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label

Page 2 of 2
EPA Reg. No. 9688-85
Decision No. 413008

constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions about this letter, please contact Maggie Rudick by phone at 703-347-0257, or via email at rudick.maggie@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gene Benbow".

Gene Benbow, Acting Product Manager 4
Invertebrate & Vertebrate Branch 1
Registration Division (7505P)
Office of Pesticide Programs

KEEP OUT OF REACH OF CHILDREN

CAUTION See side [back] [panel] for additional Precautionary statements and First Aid

NET [CONTENTS] 1 gal (3.7 L)

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

DO NOT USE ON CATS. May be toxic or potentially fatal if applied to or ingested by cats. Accidental application to cats and/or grooming a recently treated dog may result in tremors and/or uncoordinated muscle movements. If this occurs, immediate veterinary care should be provided.

First Aid

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice. **If Swallowed:** Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-917-5431 for emergency medical treatment information.

Environmental Hazards

This product is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging the treatment area. Cover aquariums and terrariums before spraying.

STOP. READ ENTIRE LABEL BEFORE USE

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For residential use only.*

RESTRICTIONS

- Do not allow adults, children, or pets to enter the treated area until sprays have dried. Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. Remove pets, birds, and cover fish aquariums before use.
- Not for broadcast use.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
 1. Treatment to soil or vegetation around structures
 2. Applications to lawns, turf, and other vegetation
 3. Applications to building foundations, up to a maximum height of 3 feet.
- Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Do not water to the point of run-off. Do not make applications during the rain. Not for use in outdoor residential misting systems.
- **Do not use this product on pets**

(Note to reviewer: Only one sprayer option will appear on product label)

[OPTION A: DIRECTIONS FOR CAPTIVE SPRAYER PRODUCT]**HOW TO USE****BEFORE USE:**

1. Shake well before each use.
2. Peel sticker from flip-top cap and open cap. Discard sticker.
3. Remove sprayer from its slot beneath the bottle handle and remove and discard plastic wrap. Pull black hose tip to completely extend tubing.
4. Firmly press black hose tip into opening in cap until it snaps into place.
5. Hold sprayer below the level of the container and prime by pumping trigger several times until product is dispensed.
6. Adjust nozzle to desired setting.

AFTER USE:

7. To store, turn sprayer nozzle off.
8. DO NOT disconnect hose.
9. Return sprayer to its slot. Hose can be pushed back into sprayer handle.

[OPTION B: DIRECTIONS FOR CAPTIVE SPRAYER with Snap Adapt Cap]**HOW TO USE****BEFORE USE:**

1. Shake well before each use.
2. Open flip top closure [Graphic depiction]
3. Remove sprayer from its slot beneath the bottle handle and unwrap the tubing. Pull hose plug to completely extend tubing.
4. Firmly press hose plug into opening in cap until it snaps into place.
5. Slide switch on hose plug counter-clockwise to "OPEN" [Graphic depiction]
6. Adjust nozzle to desired setting, SPRAY or STREAM
7. Hold sprayer below the level of the container and prime by pumping trigger several times until product is dispensed.

AFTER USE:

1. To store, turn sprayer nozzle off.
2. Turn hose plug switch clockwise to "CLOSED"
3. DO NOT disconnect hose.
4. Return sprayer to its slot. Hose can be pushed back into sprayer handle.

[OPTION C: TRIGGER SPRAYER DIRECTIONS]**SHAKE WELL BEFORE USING.**

Hold the container in an upright position [and adjust the nozzle to give a wet spray.] Spray infested surfaces until thoroughly wet. Apply directly on insects where possible. Re-treat as needed to maintain effectiveness. Do not spray into electrical outlets or utilities. Do not permit contact with treated surfaces until spray has dried.

[OPTION D Directions for EZ SPRAY™ and AccuShot Sprayer]**[Optional Subheading: Operating Instructions for AccuShot Sprayer]****[Optional Subheading: EZSpray Directions]**

1. [Unwrap sprayer.] Remove sprayer from side holder. Gently pull tubing out. (Graphical representation.)
2. Remove seal from top of cap. Unplug cap. (Graphical representation.)
3. Securely snap the [yellow] plug into hole on cap. (Graphical representation.)
4. Remove plastic tab near bottom of sprayer to activate batteries. (Graphical representation.)
5. Twist nozzle to adjust spray from CLOSE to SPRAY to STREAM. (Graphical representation.)

(Alternate AccuShot Sprayer Directions)

1. Remove cap and replace with reusable AccuShot Sprayer. Make sure sprayer cap is tightly closed before use
2. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM. [Graphic depiction]
3. [When priming the sprayer, hold sprayer level to the ground. Sprayer may not prime if it is held at an angle. Once primed, it will spray in any direction. (Graphical representation.)]

HOW TO USE THE EZSPRAY™ [Alternate: HOW TO USE THE Accushot Sprayer]

1. Aim toward target weeds/plants, and away from people and pets.
2. To improve accuracy, use slider to extend wand.[Alternate: Use slider to extend wand and to improve accuracy.]
3. Press the trigger to spray.
4. Release the trigger to stop spray.

After use: 1. Twist nozzle completely to CLOSE position. 2. Secure sprayer upright [tip down] in holder. 3. **Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in holder may result in leakage and damage to property or injury to people or animals.**

[Keep reusable AccuShot sprayer for use with Chemsico Herbicide RTU 4A]

To replace batteries: 1. Slide battery compartment door to unlatch and open. [Alternate: Use screwdriver to open battery compartment] 2. Remove used batteries and insert four new AA batteries **in correct positions** as marked per diagram inside of battery compartment. Never insert the positive end where the negative end belongs and vice versa. **Always** use a complete set of new batteries of the same type when replacing batteries. **Never** mix alkaline, carbon-zinc or rechargeable batteries. 3. Securely close battery compartment door. 4. **Always** follow manufacturer's recommendations for use and disposal of batteries. **Additional Operating Notes:** Do not submerge in water. Before each use inspect sprayer carefully, make sure hose is flexible and not kinked, worn or cracked, and that all connections are tight. When storing sprayer for prolonged periods remove batteries.

[OPTION Directions for EZ SPRAY™ and AccuShot Sprayer with Snap Adapt Cap]

[Optional Subheading: Operating Instructions for AccuShot Sprayer]

[Optional Subheading: EZSPRAY™ Directions]

1. Shake well before each use
2. Remove sprayer from side holster [Alternate: holder]. [Unwrap the tubing] [Gently pull tubing out]. [Graphic depiction]
3. Open flip top closure [Graphic depiction]
4. Securely snap the hose plug into opening in cap until it snaps into place. [Graphic depiction]
5. Slide switch on hose plug counter-clockwise to "OPEN" [Graphic depiction]
6. Remove plastic tab near top [Alternate: bottom] of sprayer to activate batteries. [Graphic depiction]
7. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM. [Graphic depiction]
8. [When priming the sprayer, hold sprayer level to the ground. Squeeze and hold trigger until liquid comes out the nozzle. Sprayer may not prime if it is held at an angle. Once primed, it will spray in any direction. (Graphical representation.)]

(Alternate AccuShot Sprayer Directions with Snap Adapt Cap)

1. Remove cap and replace with reusable AccuShot cap and Sprayer. Make sure sprayer cap is tightly closed before use
2. Twist nozzle to adjust spray from CLOSE to SPRAY or STREAM. [Graphic depiction]
3. Slide switch on hose plug counter-clockwise to "OPEN" [Graphic depiction]
4. [When priming the sprayer, hold sprayer level to the ground. Sprayer may not prime if it is held at an angle. Once primed, it will spray in any direction. (Graphical representation.)]

HOW TO USE THE EzSpray™ [Alternate: Accushot Sprayer] (For use with Snap Adapt Cap version of Directions)

- Aim toward target site [Alternate: area to be treated], and away from people and pets.
- [To improve accuracy, use slider to extend wand.][Use slider to extend wand and to improve accuracy.]
- Press the trigger to spray.
- Release the trigger to stop spray.

After use: 1. Twist sprayer nozzle completely to CLOSE position. 2. Turn hose plug switch clockwise to "CLOSED". 3. Secure sprayer upright [Alternate: tip down] in holster [Alternate: holder]. 4. **Failure to adjust nozzle completely to CLOSE position and properly secure sprayer in [holster] [holder] may result in leakage and damage to property or injury to people or animals.**

[Keep reusable AccuShot sprayer for use with Chemsico Herbicide RTU 4A]

To replace batteries: 1. Slide battery compartment door to unlatch and open. [Alternate: Use screwdriver to open battery compartment [Push release button near nozzle and lift up on battery hatch.]] 2. Remove used batteries and insert [four] [two] new AA batteries **in correct positions** as marked per diagram inside of battery compartment. Never insert the positive end where the negative end belongs and vice versa. **Always** use a complete set of new batteries of the same type when replacing batteries. **Never** mix alkaline, carbon-zinc or rechargeable batteries. 3. Securely close battery compartment door. 4. **Always** follow manufacturer's recommendations for use and disposal of batteries.

Additional Operating Notes: • Do not submerge in water. • Before each use, inspect sprayer carefully, making sure hose is flexible and not kinked, worn or cracked, and that all connections are tight. • When storing sprayer for prolonged periods, remove batteries.

[SHAKE WELL BEFORE USING]

INDOOR APPLICATION USE DIRECTIONS:

Do not use as an indoor broadcast application.

For residual and contact control of **cockroaches (waterbugs), crickets, silverfish (firebrats), clover mites, millipedes, centipedes, earwigs, sowbugs (pillbugs), spiders, brown dog ticks, lone star ticks, ants, clothes moths, carpet beetles, fleas, boxelder bugs, scorpions, spider beetles, bed bugs, grasshoppers, house flies, mosquitoes, gnats, fruit flies, cluster flies, flying moths, confused flour beetles, saw-toothed grain beetles, shiny spider beetles, grain mites, red flour beetles, angoumois grain moths, grain weevils, Indian meal moths, Mediterranean flour moths, lesser grain borers, cigarette beetles, drug store beetles, chocolate moths:** Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and

sinks, under refrigerators, baseboards, storage areas, doorways, window openings and wherever insects may enter the home. Spray directly on insects where possible. [For] **Bed bugs:** Apply as a spot treatment to cracks and crevices, around baseboards, floorboards, bedboards and walls. First, thoroughly clean and air mattresses and springs. Then spot treat only areas that may harbor bed bugs, concentrating on tufts, folds and seams. Allow treated articles to thoroughly dry before use. Repeat after 4 weeks if necessary. For persistent infestations, consult professional applicator. **To treat beds for bed bugs:** Disassemble the bed frame and remove bedding. Do not apply product to bedding. Wash bedding and dry using medium to high heat to kill bed bugs. Apply this product to the bed frame, mattress and box spring. Application to mattresses and box springs is intended for treatment of seams, edges, and tufts only. Do not saturate the mattress or box spring. Do not treat the entire surface of the mattress or box spring. Allow the spray to dry before using the mattress and/or box spring. Also apply the product to crack and crevices in sleeping area. Make spot treatment to baseboards, behind pictures/wall hangings, along and underneath carpet edges, and to other infested articles/furniture in the bedroom or sleeping area. Do not apply to stuffed animals or toys. **To treat luggage for bed bugs:** Remove contents and spot treat areas that may harbor bed bugs, concentrating on corners, pockets inside the luggage and seams. **To control [kill] confused flour beetles, saw-toothed grain beetles, spider beetles, shiny spider beetles, grain mites, red flour beetles, angoumois grain moths, grain weevils, Indian meal moths, Mediterranean flour moths, lesser grain borers, cigarette beetles, drug store beetles, chocolate moths, carpet beetles,** dispose of all infested products in the home. Avoid contamination of other food and foodstuffs in the areas by removing before spraying. The shelves and drawers should be cleaned and thoroughly sprayed so as to contact all pests, and cover with shelf paper after allowing shelves to dry. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed. Repeat after 4 weeks if necessary. **Spiders:** Spray directly on spiders and their webs. Spray all cracks and crevices which harbor spiders. Repeat after 4 weeks if necessary. **Ants:** To kill ants, spray trails, nests and points of entry within buildings and homes. Spray directly on ants where possible. Repeat after 4 weeks if necessary. **Fleas, Brown Dog and Lone Star Ticks:** Treat cracks and crevices in the floor and along baseboards at the rate of 2 seconds per linear foot at a distance of 12 to 18 inches. To prevent reinfestation, thoroughly spray pet bedding and other resting areas around the home, including carpets, until the surface is slightly moist contacting as many insects as possible. Also spray the entire inside surface of dog houses. [Optional: To control the source of flea infestations, pets inhabiting the treated premises should be treated with a product registered for application to them (such as Chemsico Flea & Tick Killer aerosol)]. **Houseflies, Mosquitoes, Cluster Flies, Gnats, Fruit Flies, Flying Moths:** Spray around door frames, window frames and in cracks and crevices. **Carpet Beetles and Clothes Moths:** Apply spray as a spot treatment in corners of the room, in cracks and crevices and along baseboards. Spray underside of carpet when possible. Avoid wetting or soaking. Allow treated articles to thoroughly dry before use. *NOTE: Check carpet manufacturer's warranty, care and maintenance information before using product on your specific brand of carpeting.* **To treat Garments, Blankets, Carpets and Other Fabrics Before Storage:** Dry clean or wash before treatment and after storage. Apply spray evenly, covering the material on both sides until slightly moist. For best results, place treated materials in plastic bags after drying and store in a dark place. Also spray floor and baseboards, closets, cracks, crevices, infested areas of shelving and/or wherever these insects are seen or suspected.

OUTDOOR APPLICATION USE DIRECTIONS:

Pests on outside surfaces of buildings: Use this product to control [kill] **Ants, Asian beetles, Clover Mites, Crickets, Earwigs, Millipedes and Sowbugs (Pillbugs)** on the outside surfaces of buildings. To help prevent infestation of buildings, treat the building foundation to a height of 2 to 3 feet, where pests are active and may find entrance. Also, apply as a residual spray to outside surfaces of buildings, including porches, screens, window frames, eaves, patios, garages, refuse dumps, and other areas where these pests congregate or have been seen. **Houseflies, Mosquitoes, Cluster Flies, Gnats, Flying Moths:** For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate. Repeat after 4 weeks if necessary. **Ants, Lone Star Ticks, Crickets, Fleas, and Earwigs:** For treatment of localized infestations of these insects in outdoor areas where there are weeds or bushy non-crop areas, spray infested areas thoroughly. For **Ants**, thoroughly wet hills and runways. To Control [Kill] **Fire Ants:** Apply 1/2 gallon (64 fl oz) of solution to each fire ant mound using a sprinkler can. Thoroughly wet the mound and surrounding area to a 4 ft diameter. For best results, apply in cool weather, 65 - 80° F, or in early morning or late evening hours. Treat new mounds as they appear. Do not disturb the mound prior to treatment. If possible, treat all mounds in the vicinity, and treat all colonies which may not as yet have constructed a mound. Do not use equipment that produces a pressurized spray as pressurized sprays may disturb fire ants and cause migration, reducing product effectiveness.

[OPTIONAL DIRECTIONS FOR WOOD INFESTING INSECTS:]

INDOOR APPLICATION USE DIRECTIONS:

Spray areas where insects may hide or enter the home; including cracks, crevices, openings around pipes and sinks, under refrigerators, baseboards, flooring†, storage areas, doorways, window openings and wherever else insects may enter the home.

In addition to the indoor treatment, kill the **ants, crickets, earwigs, millipedes and sowbugs** outside before they move inside. Spray around your home's foundation to a height of 3 feet, and treat ant trails. For best results, repeat treatment monthly. For best results in controlling [killing] **fleas and ticks (American dog, brown dog, deer, lone star)**, treat your home and yard frequently. Focus on areas where pets spend time, especially where they sleep. *Do not use on cats. May be toxic or potentially fatal if applied to or ingested by cats.* In addition, treat pets regularly with a product registered for use on that pet. **Do not use this product on pets.** To reduce annoyance from **mosquitoes, flies, gnats, moths, wasps and hornets**, spray outside surfaces of screens, doors, window frames and around outdoor light fixtures. Apply every two weeks for best results. For control of **carpet beetles†**, spray along baseboards and

edges of carpeting, under carpeting, rugs and furniture, in closets, on shelving and wherever these insects are seen.

†Check manufacturer's warranty, care and maintenance information before using product on your specific brand of carpeting or flooring.

OUTDOOR APPLICATION USE DIRECTIONS: WOOD INFESTING INSECTS

For Beetles (Furniture, Deathwatch, False powderpost, Longhorned, Powderpost), Carpenter ants (and other wood infesting ants), Carpenter bees:

Treat outside surfaces around the home including, porches, wooden decks and patios, wooden fences, window frames, doorways, foundations, eaves, patios, garages, garbage areas and other areas where you may find these pests.

Spray infested surfaces until thoroughly wet. Apply evenly on wood surfaces, using a coarse spray, avoiding dripping and runoff. One gallon will treat 100 sq. ft. Re-treat as needed to maintain effectiveness.

Spray infested areas and areas likely to be infested, such as wood surfaces, voids and channels in damaged wood, spaces between wooden parts of a structure, and between wood and foundations where infestation is likely to occur, also around fenceposts, wood piles (do not use on firewood) and tree stumps.

Suitable protective clothing should be worn in confined or over-head areas to prevent exposure to eyes and skin. The use of eye protection, protective head covering, chemical resistant gloves and footwear, a long-sleeved shirt and long pants or coveralls are recommended. Confined areas, such as detached garages, under porches and decks, should be ventilated during and immediately following application before the areas are re-occupied.

For carpenter ants, spray around doors and windows and other places where ants may enter or crawl and hide. Also treat cracks and crevices or openings into wall voids or other areas where they may be present.

For carpenter bees, spray or inject into holes and tunnels already made by the bees, and spray areas where they are beginning to build tunnels into the wood.

STORAGE AND DISPOSAL (FOR HAND HELD TRIGGER SPRAYER PRODUCTS)

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store in cool, dry area away from heat or open flame. **Pesticide Disposal and Container Handling: If empty:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

STORAGE AND DISPOSAL (for use with AccuShot or EZ Sprayer)

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Turn the nozzle to "CLOSE" position. To prevent leakage, attach sprayer to clip. Store this product only in its original container in a secure storage area away from sources of heat or open flame and in an area inaccessible to children and pets. Keep from freezing. **Pesticide Disposal and Container Handling:** Do not discard the AccuShot Sprayer. Keep the AccuShot Sprayer for use on Chemsico Herbicide RTU 4A. Nonrefillable container. Do not reuse or refill this container unless the directions for use allow a different (concentrated) product to be diluted in the container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

STORAGE AND DISPOSAL (For AccuShot Sprayer or EZ Sprayer with Snap Adapt Cap)

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Turn the nozzle to "CLOSE" position. To prevent leakage, place sprayer in holster. Store this product only in its original container in a secure storage area away from sources of heat or open flame and in an area inaccessible to children and pets. Keep from freezing. **Pesticide Disposal and Container Handling:** Do not discard the AccuShot Sprayer. Keep the AccuShot Sprayer for use on Chemsico Herbicide RTU 4A. Nonrefillable container. Do not reuse or refill this container unless the directions for use allow a different (concentrated) product to be diluted in the container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

STORAGE AND DISPOSAL (FOR CAPTIVE SPRAYER)

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Turn the nozzle to "OFF" position and store with sprayer above the level of liquid in container to prevent leakage. **Pesticide Disposal and Container Handling: If empty:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance

with directions.
